Letter from Superintendent

Blue Jay Team,

Welcome to the 2023-2024 school year! I am excited to begin this school year as we continue to work together to serve the students and families of our school district. Each one of you plays an important role in our District meeting its mission of “preparing each student for a successful future.”

I am extremely proud to be part of this school district and continue to build on the tremendous achievements of our students and staff at Marshfield R-I. I can’t wait to see the great things that will come from this school year and to celebrate the accomplishments of our students and our staff. Thank you for all that you do in your respective roles throughout the district, as we know that it truly takes all of us pulling together in order to be successful.

Marshfield R-I continues our partnership with EdCounsel Guide Service (EGS) for our Board policies and operations manual, employee manual, student/parent manual, and administrative procedure handbook. The guidelines contained in this Employee Handbook are here for your guidance, but also for your protection. Please take some time to review this document and don’t hesitate to let any administrator know if you have any questions.

2023 is going to be a great school year.

Best wishes and Go Blue Jays,

Mike Henry, Superintendent

Complaints or Concerns C-120-E

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights, including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Title: Assistant Superintendent of
Operations
Name: Josh Hume
Email: josh.hume@mjays.us
Phone: (417) 859-2120 ext. 9009

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Title: Superintendent of
Schools
Name: Mike Henry
Email: Mike.henry@mjays.us
Phone: (417) 859-2120 ext. 9008

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

Notice of Non-Discrimination: Equal Opportunity and Prohibition against Discrimination, Harassment and Retaliation C-130-E

The District is committed to providing equal opportunity in all areas of admission, recruiting, hiring, employment, retention, promotion, contracted services, and access to programs, services, activities, and facilities. The District strictly prohibits any unlawful discrimination or harassment against any person because of race, color, religion, disability, age, sex, gender, national origin, or any other characteristic protected by law. The District also prohibits retaliatory action, harassment, or discrimination against individuals who make complaints of, report, or otherwise participate in the investigation of any such unlawful discrimination, harassment, or retaliation. The District is an equal opportunity employer.

Anyone who believes that they have been discriminated, harassed, and/or retaliated against in violation of this policy should report the alleged discrimination, harassment and/or retaliation to the District's Compliance Officer, unless the Compliance Officer is unavailable or the subject of the report. In that case, the report should be made directly to the alternative Compliance Officer. The District designates the following individual to act as the District's Compliance Officer:

Title: Assistant Superintendent of
Operations
Name: Josh Hume
Email: josh.hume@mjays.us
Phone: (417) 859-2120 ext. 9009

In the event the Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Title: Superintendent of
Schools
Name: Mike Henry
Email: Mike.henry@mjays.us
Phone: (417) 859-2120 ext. 9008

All employees, students, and visitors who have witnessed any incident or behavior that could constitute discrimination, harassment, or retaliation under this policy must immediately report such incident or behavior to the District's Compliance Officer for investigation.

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken.

Title IX C-131-P

The District does not discriminate on the basis of sex in the education program or activity that it operates and is required by Title IX not to discriminate in such a manner. The requirement not to discriminate in the education program or activity extends to admissions and employment. Inquiries about the application of Title IX to the District may be referred to the Title IX Coordinator or Assistant Secretary for Civil Rights of the Department of Education, or both.

The District designates the following individual to serve as the District's Title IX Coordinator:

Name:	Josh Hume, Assistant Superintendent of Operations
Address:	170 State Highway DD, Marshfield, MO 65706
Email Address:	josh.hume@mjays.us
Phone #:	(417) 859-2120 ext. 9009

Any person may report sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. Such a report may be made at any time (including during nonbusiness hours) by using the telephone number or electronic mail address, or by mail to the office address, listed for the Title IX Coordinator.

All employees, students, and visitors who have witnessed, heard about, or received a report about any incident or behavior that could constitute sexual harassment under this policy must immediately report such incident or behavior to the District's Title IX Coordinator for investigation. If the allegations are against the District's Title IX Coordinator, it must be immediately reported to the Superintendent, unless the Superintendent is also the Title IX Coordinator, then to the President of the Board of Education.

All complaints of violation of this policy will be promptly investigated by the District, and appropriate action will be taken.

Public Notice

The Superintendent or designee will publicize this policy and will disseminate information about this policy to employees, parents/guardians, students, newly-enrolled students, newly-hired employees, and all unions or professional organizations holding collective bargaining or professional agreements with the District.

Employee Information

Hiring Procedures for Current Employees E-105-E

Current employees who are qualified for an open position may apply for advertised positions. The Superintendent has the authority to assign a current staff member to an open position, subject to any required approval by the Board. If such an assignment is to a newly created position, the Board must approve the reassignment. If such an assignment results in an increase in compensation and/or requires the execution of a new contract of employment, the Board must approve such the reassignment.

Employment of Retirees

Individuals who are retirees receiving retirement benefits from the Missouri Public School Retirement System, the Public Education Employee Retirement System, the Kansas City Public School Retirement System or the Public School Retirement System of the City of St. Louis may be employed by the District in accordance with the laws and regulations governing the hiring of retirees.

The District will not reach a formal or informal agreement, written or unwritten, to employ an individual post-retirement, until after the individual has received his or her first payment of retirement benefits.

The Superintendent or designee will maintain documentation regarding the amount of time worked by a retiree in the District and retirees hired by the District are required to maintain documentation of any work for any other public school system other than the District and provide those records to the District on the basis directed by the Superintendent or designee, to ensure compliance with regulations regarding hours worked by retirees.

Public Service Loan Forgiveness Information

If you are a teacher, you may be eligible for certain public service loan forgiveness programs offered by the federal government. For the most up-to-date information regarding such programs, please go to:

<https://studentaid.gov/manage-loans/forgiveness-cancellation/public-service>

Criminal Background Checks

Prior to employment of any individual authorized to have contact with students, the District must obtain a criminal background check that is satisfactory. Whether a background check is satisfactory is in the sole discretion of the Superintendent or designee. A criminal background check may include, but is not limited to:

- Federal Bureau of Investigation criminal history files
- Missouri State Highway Patrol criminal history database
- Missouri State High Patrol sexual offender registry
- Family Care Safety Registry or the central registry of child abuse and neglect of the Children's Division of the Department of Social Services
- Missouri Case.net

- Other databases required by the law or by the District

Staff members may be required to submit to additional background checks, rerun background checks, or participate in state or federal RAP back programs at District expense. The District may update criminal background checks as often as the Superintendent determines.

Volunteer Background Checks:

All individuals who volunteer in a District position where they may periodically be left alone with students or who will have access to student records must complete a criminal background check. Further, volunteers who chaperone students on overnight trips or who serve as sponsors, advisors, or coaches for District-sponsored activities will be required to complete a criminal background check.

A volunteer will not be required to complete a background check if they have had a background check conducted by another Missouri public school within the last year and the current District receives a copy of the background check from the previous District or is able to obtain electronic access to the previous background check.

The Superintendent or designee may also require other volunteers to undergo a background check, or the District may conduct a search of the MSHP's criminal history database and the FCSR or the CD's central registry of child abuse.

Compliance with the Fair Labor Standards Act E-110-E

The Superintendent or designee shall make a determination regarding whether a staff member is exempt or nonexempt under the Fair Labor Standards Act (FLSA).

Overtime: Overtime hours are the actual hours worked in excess of 40 hours in a workweek. Exempt employees are not eligible for overtime compensation or compensatory time. Nonexempt employees shall not work overtime without the express prior approval of a supervisor designated by the Superintendent to approve overtime.

Compensatory Time: Time off shall be awarded to nonexempt employees at the rate of one and half times the number of actual hours worked in excess of 40 hours in a workweek.

The following classifications of employees will be provided compensatory time in lieu of overtime: classified staff. Compensatory time may be accrued up to 40 hours/26.67 overtime hours. Overtime worked beyond this maximum accrual will be monetarily compensated at the rate of one and one-half times the individual's rate of pay.

The District may require that an employee use accrued compensatory time. The District will approve the use of compensatory time within a reasonable period of time after the request has been made to an employee's supervisor unless the use of compensatory time would impose an unreasonable burden on the District's ability to

conduct District operations. In such a case, the use of compensatory time may be postponed by the District.

Upon leaving the District, an employee will be paid for any unused compensatory time at a rate not less than the average regular rate received by such employee during the last three (3) years of the employee's employment, or the final regular rate received by such employee, whichever is higher.

Workweek: A workweek is a period of 168 hours during seven (7) consecutive 24-hour periods. The workweek shall begin on Monday at 12:00 a.m.

Timekeeping: All nonexempt employees are required to accurately complete a daily time record showing actual hours worked using the approved District timesheets. Nonexempt employees working more than one job within the District should document their time on separate lines of the timesheet specific to each position. The total number of hours reported in the timesheet should be calculated to the closest quarter-hour. The working of overtime and/or the use of compensatory time MUST be approved by the supervisor in advance.

Timesheets will be delivered to each building prior to the start of the new pay period. Each timesheet will be used to record only the hours physically worked from the 16th of the month through the 15th of the following month. Timesheets should be turned in to supervisors for approval and then forwarded to central office. Timesheets will not be accepted until signed by the supervisor.

Lunchtime is not to be included in the hours worked, unless asked or allowed by your supervisor to work during lunch. Holiday time will automatically be added by the payroll department.

The line for extra duty should only be used if an employee has been instructed to do additional duties not part of their regular job description. If you have time under this definition, a note should be made about what duty was performed. Overtime or additional time is not allowed except with prior approval of your building principal or supervisor.

Breaks for Nursing Mothers

The District will provide accommodations in each school building to lactating employees, teachers, and students to express breast milk, breast-feed a child, or address other needs relating to breast-feeding for one year after the child's birth. The District will provide a minimum of three opportunities during a school day to accommodate an employee, teacher, or student's need to express breast milk or breast-feed a child.

Compensation of Employees

- Teachers: Teachers will be compensated according to a salary schedule applicable to all teachers of the District in accordance with the law. An employee may not

advance more than one step vertically on the salary schedule unless such movement is allowed by the rules adopted by the Board and is uniformly applicable to that particular salary schedule or is otherwise approved by the Board. An employee cannot progress on the salary schedule after entering into a contract for a school year unless such movement is specifically authorized in the contract. Education courses and other professional development may not be used to advance on a salary schedule unless the employee had prior administrative approval to take the course or participate in the professional development and count it for advancement on the salary schedule. The District will recognize similar, previous experience of an employee when placing that employee on the salary schedule. The Board delegates to the Superintendent or designee the authority to set guidelines on which previous experiences qualify. In addition, the District may recognize military service or work experience that the District considers beneficial to the position. It is the employee's responsibility to fully apprise the District of his or her relevant background when first being employed in the position. Once the employee is initially placed on the salary schedule, the District is under no obligation to review the placement.

- Professional Non-Certified Staff Members: Non-certified professional staff members may be compensated according to a salary schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment or contracts of employment.
- Support Staff: Support staff members may be compensated according to a wage schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment.

All Board-approved salary schedules can be accessed on the District's website at: <https://www.mjays.us/Page/1442>

Extra Duty Assignment Compensation: Staff members who provide extra duties may be compensated according to a wage schedule for such duties developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment. Any salary/wage schedule adopted by the Board may be modified in accordance with the law and in accordance with any applicable employment contracts and/or collective bargaining agreements. The Board may elect to freeze the operation of some or all salary/wage schedules.

Employees who are under contracts of employment shall not receive compensation in excess of the amount set forth in the contract of employment for the contract year unless the employee assumes additional or extra duties beyond the duties contemplated by the contract of employment.

Employees and prospective employees of the District are responsible for providing the District with sufficient information and documentation regarding past work and educational experience to allow the District to ascertain appropriate placement on any applicable salary/wage schedule and/or to determine appropriate compensation for duties and/or extra duty assignments. The District is not required to review or change placement on any salary or wage schedule after an employee's placement has been determined.

Employees may be subject to disciplinary action for providing information that leads to improper placement on a salary or wage schedule, improper assignment of compensation based on education or experience or other relevant factors, or for inaccurately reporting time worked according to the District's timekeeping method/s.

Pay Periods: All employees will be paid on a monthly basis on the last working day of each month. Direct deposit is required for new employees by the District instead of the traditional issuing of paper payroll checks. Contact Central Office to arrange for direct deposit. Pay stubs are available by logging in to the SISFin Portal. The portal will also show information about deductions, withholdings, and benefit status each month.

Payroll Deductions: Tax deferral options for additional retirement plans and supplemental insurance premiums are available. Contact Central Office with questions.

Voluntary Deductions: The District may authorize voluntary payroll deductions from compensation earned by employees if ten (10) or more employees so request. The employee must authorize all voluntary deductions in writing. In addition to the deduction of amounts authorized by the employee, the District may deduct the administrative cost of compliance. The amount deducted will be remitted to the organization, company or association authorized by the employee.

Involuntary Deductions: The District may make deductions when an employee owes the District money and the deduction does not otherwise violate the law. The District may make deductions from an employee's pay for unauthorized absences. The District will also make deductions when presented a garnishment, wage attachment or other legal order. The District may deduct amounts owed to the District by the employee for unpaid meal accounts for the employee or the employee's child/ren, and for payment of other District-related accounts such as daycare, preschool, unpaid uniform accounts, payment for damage to District property, and other possible charges in the District's discretion.

The District may charge an administrative fee for processing such deductions when allowed by law.

Salary deductions for exempt employees shall be computed by dividing the salary, excluding extra-duty pay, by the number of days in the contract period. Deductions for nonexempt employees shall be based upon the hourly rate of the individual employee.

All District employees are responsible for ensuring compensation received from the District is correct according to their contracts/letters of assignment and, for non-salaried staff members, according to their timesheets and time actually worked. Employees must notify the District of any discrepancy in compensation within 30 days of receipt.

The District may deduct any overpayment made to an employee as permitted by law, even if an employee fails to report such overpayment.

Improper Deductions: Employees who believe that pay deductions have been improperly made should immediately report the concern to the Superintendent or designee.

Extra Duties Generally

Employees may be assigned to perform reasonable duties in addition to their regularly assigned job duties if the Superintendent or supervisor determines that the needs of the District so require to adequately serve the needs of the students of the District. Whether compensation for these duties, including overtime compensation, is appropriate will be determined by the Superintendent and approved by the Board in accordance with policy and the law.

Extra Duty Positions: Extra duty positions (such as coaching positions, club sponsor positions, etc.) may be created by the Board and employees may be hired for such positions by the Board upon the recommendation of the Superintendent. Extra duty positions are at-will positions and will be compensated at the rate set by the Board of Education and in compliance with the Fair Labor Standards Act (FLSA), if applicable. Extra duty positions are not subject to the provisions of the Teacher Tenure Act.

Extra Duty Assignments: Upon approval of candidates by a majority of the whole Board, the Superintendent may engage interested employees to perform occasional extra duty assignments such as concession stand, timekeeping, ticket booth, and other such occasional assignments.

Employee Leave and Absences E-115-E

The District requires that employees have consistent attendance in order to achieve the best outcome for District students and to ensure all District operations run smoothly. The District provides leave to employees, as more specifically outlined below, in order to provide security for employees who need time off for reasons approved herein. Attendance is an essential duty of every employee's position in the District, and excessive or improper absences and/or tardiness create a hardship on the District, its students, and staff. Staff members who are ill should take provided leave in order to ensure the overall health and wellness of the school community.

Absences and Tardiness:

Absences and tardiness may be considered excessive or improper under conditions such as, but not limited to the following:

- The absence or tardiness results in an employee exceeding the number of leave days allotted to him/her;
- An employee's absences exceed 4 days within a 30-day period, 9 days within a 120-day period, or 12 days within a 180-day period, or creates a hardship on the District;
 - Approved vacation time does not count toward excessive absences for 12month employees.
- An employee's tardiness exceeds 2 days within a 30-day period, 4 days within a 120-day period, or 6 days within a 180-day period, or creates a hardship on the District;
- The absence/tardiness was not requested by the employee and/or was not approved by the appropriate supervisor, which includes a "no-call-no-show" situation;
- The employee provides incomplete or inaccurate information regarding the reason for the need for leave or tardiness, or fails to respond completely or appropriately when directed to provide supporting documentation;
- The employee is absent from work, fails to contact his or her supervisor, and fails to adequately respond to the District's attempts to contact the employee. Under these circumstances, the District will consider this a resignation by the employee.

The District is entitled to dock an employee's compensation in the event that absences or tardiness are excessive or improper.

Procuring a Substitute Teacher:

As soon as you know you will need a sub for a day, you may put that request into Frontline. The sooner you are able to do that, the better chance you will have at getting your preferred substitute assigned to your room. If you need a sub for the following day, the deadline for entering that request into Frontline is 4:00p.m. the prior day. If it is after 4pm, then you need to call/text your building principal who will contact the PenMac Coordinator. If you wake up one morning and you need a sick day, call/text your building principal. If you will need a long-term substitute, please let your building principal know *ASAP so we can obtain the best person for your class.*

Substitute Folders

Your substitute teacher folder should be updated and left in your room where it can be easily found by the substitute. Please include complete schedules, directions for the daily attendance sheet, special student needs, bus numbers, drill directions, back-up lessons, etc.

Personal leave may be applied when sick leave has been exhausted, and can also be applied to leave that would otherwise be unpaid, such as FMLA leave. Personal leave must be approved by the employee's direct supervisor, and requests should be made, when possible, at least 48 hours in advance of the date leave is required. An employee may use any combination of accrued leave or unpaid leave during this period of time. An employee who is appointed to serve as an election judge may, on Election Day, be absent from his or her employment for the period of time that the election authority requires the employee to serve as election judge. Employees must notify employers at least seven days prior to an election that they will be absent from work on Election Day due to service as an election judge.
- *Firefighter Leave:* The District will permit employees to use available leave, other than sick leave, or unpaid leave, for time required to respond to an emergency when the employee is performing duties as a volunteer firefighter, as defined under the law. Employees are not required to use leave in order to perform jury duty, and the District will not terminate, discipline, threaten or take adverse actions against an employee on account of the employee's receipt of or response to a jury summons.

Family and Medical Leave:

The District will provide leave to employees as required under the Family and Medical Leave Act (FMLA) in accordance with federal law, and provide all other types of leave protected by state and/or federal law. It is unlawful for any employer to interfere with, restrain, or deny the exercise of any right provided under FMLA. It is also unlawful for an employer to discharge or discriminate against any individual for opposing any practice, or because of involvement in any proceeding, related to FMLA.

To be eligible for FMLA leave benefits, an employee must:

1. Be employed at a worksite where 50 or more employees are employed by the District within 75 miles of that worksite;
2. Have been employed by the District for at least 12 months; and
3. Have been employed for at least 1,250 hours of service during the 12-month period immediately preceding the leave.

An eligible employee may qualify for up to 12 workweeks of FMLA leave within a 12-month period for the following reasons:

- The birth of a child or placement of a child with the employee for adoption or foster care, within one year of the birth/placement.
 - Birth and bonding leave must be taken as a continuous block of leave.
- To care for a spouse, son, daughter, or parent who has a serious health condition;
 - "Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.
- For a serious health condition that makes the employee unable to perform the essential functions of his or her job;
- An employee with a "serious health condition" is "unable to perform the functions of the position" where the health care provider finds that the employee is unable to work at all, or is unable to perform any one of the essential functions of the employee's position. An employee who must be absent from work to receive medical treatment for a serious health condition is considered to be unable to perform the essential functions of the position during the absence for treatment. Employees may be required to present a fitness for duty to return to work.

- Employees may be entitled to qualifying exigency leave under the FMLA arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.
 - Eligible employees may take FMLA leave for a qualifying exigency while the military member is on covered active duty, call to covered active duty status, or has been notified of an impending call or order to covered active duty.
 - Qualifying exigencies may arise when the employee's spouse, son, daughter, or parent who is a member of the Armed Forces (including the National Guard and Reserves) and who is on covered active duty or has been notified of an impending call or order to covered active duty. For purposes of qualifying exigency leave, an employee's son or daughter on covered active duty refers to a child of any age.

An eligible employee may qualify for up to 26 workweeks of FMLA leave within a 12-month period for the following reason:

- To care for a covered servicemember with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the servicemember (military caregiver leave).
 - This applies to both current servicemembers and certain veterans.
 - The single 12-month period for military caregiver leave begins on the first day of leave and ends 12 months later, regardless of the 12-month period established by the District.
 - This is a combined total of 26 workweeks of leave for any FMLA qualifying reasons during the single 12-month period. Up to 12 of the 26 weeks may be for an FMLA-qualifying reason other than military caregiver leave.
 - This leave may be used once per servicemember, per serious injury or illness. However, an eligible employee may take an additional 26 weeks of leave in a different 12-month period to care for the same servicemember if he or she has another serious injury or illness.

The District shall use the following established 12-month period to measure FMLA eligibility: July 1st – June 30th. Employees must notify the District of the need for leave and the reasons for leave so the District is able to make a FMLA eligibility determination.

If the leave is foreseeable, employees are required to request leave 30 days in advance, by specifying the reasons for leave, the anticipated start date of the leave, and the anticipated duration of the leave. When the need for leave is foreseeable less than 30 days in advance or is unforeseeable, employees must provide notice as soon as possible and practicable under the circumstances. In the case of leave for a qualifying exigency, the employee must give notice of the need for such leave as soon as possible and practical, regardless of how far in advance the leave is needed. A failure by an employee to provide required notice may result in a delay or a denial of FMLA leave.

The District will comply with procedures required under FMLA regarding notification of eligibility, rights, and responsibilities. If the employee is not eligible, the District will provide a reason for ineligibility. The District will provide written notice to an employee if leave is designated as FMLA leave based on employment status and the reason for leave. The employee will be provided this notice within five (5) business days of the District receiving sufficient information to make an eligibility determination. If ascertainable, the notice will notify the employee of the time that will be counted against the employee's FMLA leave allotment.

The District may require an employee requesting FMLA leave to submit a timely, complete, and sufficient medical certification to support a request for FMLA leave or periodic recertification supporting the need for leave due to the employee's own serious health condition. If requested, a response is required to obtain or retain the benefit of FMLA protections. Failure to submit a timely, complete, and sufficient certification may result in discipline, up to and including termination of employment or in a denial of an FMLA request. At least 15 calendar days will be provided to the employee to obtain a sufficient and complete certification. Certifications that are incomplete will be required to be updated as permitted by and within the timelines allowed under the law.

The District will apply all appropriate paid leave to an FMLA absence. Upon the exhaustion of applicable paid leave during a period of FMLA leave, the remaining FMLA-qualifying absences will be unpaid. When an employee's absence meets the criteria to be FMLA-qualified, the District will designate such absence as FMLA leave, even if the employee has not requested it be designated or does not want it to be designated as FMLA leave and/or the leave is paid or unpaid. If the employee is absent due to an injury/illness that is designated as a Workers' Compensation related issue that would also qualify as a serious health condition under FMLA, the absence will also be designated as an FMLA absence. The District may designate FMLA leave retroactively. When both spouses are employed by the District, eligible for FMLA leave, and wish to take FMLA leave for the same qualifying event (either birth and bonding with newborn, placement and bonding of child for adoption or foster care, or care of a parent with a serious health condition), the leave will be limited to a total of 12 workweeks during a 12-month period between the two spouses for the relevant qualifying event. The total taken by an individual employee will count against the individual employee's 12 workweek availability, should a separate FMLA qualifying event arise during the applicable 12-month period. Eligible spouses who work for the District are also limited to a combined total of 26 workweeks of leave in a single 12-month period to care for a covered servicemember with a serious injury or illness if each spouse is a parent, spouse, son or daughter, or next of kin of the servicemember. When spouses take military caregiver leave as well as other FMLA leave in the same leave year, each spouse is subject to the combined limitations.

FMLA leave may be taken intermittently as required by law.

For eligible instructional employees who require intermittent or reduced schedule leave of more than 20 percent of instructional time, and whose principal function is to teach

and instruct students in a class, a small group, or an individual setting, including teachers, athletic coaches, driving instructors, and special education assistants, such as signers for the hearing impaired, the District may require the employee to take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment or transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position. Additionally, if an instructional employee is scheduled to return from FMLA leave near the end of a school term, the District may choose to require the employee to prolong his or her leave until the beginning of the next term, in accordance with the law regarding this option under FMLA. Any leave that the District requires an employee to take between the time the employee is able to return to work and the beginning of the next term is unpaid, but shall not be charged against the employee's annual FMLA leave entitlement.

During a period of FMLA leave, employees are entitled to continue participation in the District's health plan for the period of protected leave. The District may require the employee to repay the District's share of the premium payment if the employee fails to return to work following the FMLA leave unless the employee does not return because of circumstances that are beyond the employee's control, including a FMLA-qualifying medical condition.

Employees who take FMLA leave may return to the same or an equivalent position with equivalent pay, benefits, and working conditions, upon return from leave as required by law. The District has discretion to determine what assignment is appropriate based on certification, qualifications, and what is in the best interest of students of the District and the consistent operation of the District.

Employees may file a complaint with the U.S. Department of Labor or file a lawsuit against the District for FMLA violations.

Employee Health and Safety E-125-E

The District seeks to provide safe working conditions for all staff members. Staff members are required to comply with all safety guidelines and directives provided by District policy, job descriptions, and as provided by supervisors and administrators of the District. Staff members will be trained on health and safety. Staff members must report all conditions that threaten the health or safety of staff members or students of the District to the administration.

Staff members whose job descriptions set forth certain physical requirements may be required to provide documentation which indicates the ability to perform such duties in accordance with the law. Similarly, the District will make medical inquiries regarding employees in accordance with the law. Drivers of District transportation, whether directly employed by the District or through a contracted service provider, must upon hire and thereafter biennially, file a statement from the medical examiner within the District confirming that the individual meets the physical qualifications to operate District transportation for the purpose of transporting students.

The District will provide reasonable accommodations to employees as required under the Americans with Disabilities Act (ADA) and otherwise comply with other applicable provisions of the ADA.

The District will provide reasonable safety accommodations to employees who are victims of domestic or sexual violence or have a family or household member who is a victim of domestic or sexual violence, as required under Missouri law.

Workers' Compensation

An employee of the District who is injured, killed or who is exposed to and contracts an occupational disease arising out of and in the course of employment is eligible for compensation in accordance with Missouri Workers' Compensation Law and District policy.

Employees are required to report all workplace injuries immediately to his or her immediate supervisor by submitting a written incident report. Workers' Compensation packets, including injury reporting forms are located in each building's nurse's office. An employee's supervisor will assist the employee with completion of the written incident report as soon as possible in the event that the supervisor is aware of the incident and if the employee is unable to complete the incident report due to the nature of the injury or illness. Employees who fail to notify the District within 30 days may jeopardize their ability to receive compensation, and any other benefits under the law and District policies and rules.

The District may designate medical providers for Workers' Compensation evaluations, claims, and treatment. If the employee desires, he or she shall have the right to select his or her own physician, surgeon, or other such requirement at the employee's own expense.

An employee may experience reduced benefits in the event that an employee fails to comply with safety rules, guidelines, or directives adopted by the District or if the employee fails to use safety devices provided by the District.

If an employee fails to obey the District's drug-free workplace rule or any other District policy or rule related to the use of alcohol or non-prescribed controlled substances, an employee may experience reduced benefits or the loss of benefits as set forth under the law if the injury was sustained in conjunction with the use of alcohol or non-prescribed controlled drugs. District administration may require an employee who reports an injury to undergo post-injury testing for alcohol or non-prescribed controlled substances in accordance with the law. A refusal to submit to a test will result in the loss of benefits and may result in disciplinary action, up to and including termination of employment.

An employee is disqualified from receiving temporary total disability during any period of time in which the claimant applies and receives unemployment compensation. If the employee is terminated from employment based upon the employee's post-injury misconduct, neither temporary total disability nor temporary partial disability benefits are payable under the law.

Employees are not permitted to use paid leave for absences during a period when an employee receives any Workers' Compensation wage benefits. The District will apply paid leave, if available, to the first three (3) days of absence, if the total absence is less than 14 days, upon receipt of confirmation that an employee will not receive Workers' Compensation wages for those days. The District will require an employee to use any of the employee's accumulated paid leave, personal leave, or sick leave to attend to medical treatment, physical rehabilitation, or medical evaluations during work time. If no paid leave is available, such leave will be granted as unpaid leave. Employees who are absent due to a Workers' Compensation qualifying injury or illness and are receiving wage benefits during that period of time will not lose accrued leave for such absences.

Drug Free Workplace E-130-E

The District does not tolerate the unlawful use, manufacture, distribution, sale, possession or dispensation of controlled substances, alcohol, or unauthorized prescription medications by employees of the District in any District setting, including but not limited to: District property, District transportation, vehicles approved for the transport of students to or from school-related activities or programs, off-campus sites being used for any District sponsored or District-approved activity, program, or event where students are under the supervision of the District, or in any setting where an employee is engaged in District business that requires the supervision of students or involves the presence of students. The District does not allow employees to be present in any District setting described above while under the influence of any controlled substance, alcohol, or unauthorized prescription medication, even if such substance was consumed prior to the employee before entering a District property or activity. All employees of the District are required, as a condition of employment, to comply with these rules and notify the Superintendent of any criminal drug statute conviction for a

violation occurring in the workplace no later than five (5) days after the conviction. Employees who fail to comply with these requirements are subject to disciplinary action up to and including termination of employment in accordance with District rules and District policies. Information regarding the negative health and safety effects of drug use and alcohol abuse is available through the Assistant Superintendent of Operations.

The possession, use, and being under the influence of medical marijuana is prohibited while at work.

Employees must safeguard any of their own authorized prescription medications in any District setting, including but not limited to: District property, District transportation, vehicles approved for the transport of students to or from school-related activities or programs, off-campus sites being used for any District-sponsored or District-approved activity, program, or event where students are under the supervision of the District, or in any setting where an employee is engaged in District business that requires the supervision of students or involves the presence of students. This includes, but not limited to, storing authorized prescription medication in child-proof or locked containers.

Drug and Alcohol Testing: In accordance with the District's commitment to a drug and alcohol-free workplace, the District will make every effort to ensure that employees are not under the influence while engaging in their employment. The information included in this Employee Manual serves as notice to all staff members of the District's drug and alcohol testing procedures.

If the District has reasonable suspicion that a staff member is under the influence of alcohol or a controlled substance in violation of these rules, the District may require an employee to submit to an alcohol and controlled substances test. Employees who exhibit signs of being under the influence of a prohibited substance just before, during, or just after the period of the workday may be subject to reasonable suspicion testing. Additionally, staff members who operate District transportation are required to undergo testing as required by law. Drivers of District transportation, whether employed by the District or a third party contractor, are prohibited by law from using alcohol within four (4) hours of reporting for duty. Drivers who are required to take a post-accident test are prohibited from using alcohol for eight (8) hours following any such accident or until the driver undergoes the test, whichever comes first.

Supervisors of employees who have reasonable suspicion that an employee is under the influence of alcohol or drugs in the workplace are required to immediately report such condition to the Superintendent or designee. The Superintendent/designee will determine if testing is appropriate and if so, direct the employee at issue to submit to a mandatory test. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard.

If the District employs its own drivers for District transportation who are "operators of commercial motor vehicles", the District will comply with federal requirements

regarding drug and alcohol testing, including the implementation of pre-employment drug screening, and reasonable suspicion, random, and post-accident testing at laboratories certified by the U.S. Department of Health and Human Services, and shall notify all drivers covered by federal requirements of such procedures. If the District contracts with a third party for transportation services, the District will require by contract with such third party that the contractor comply with all guidelines of the Omnibus Transportation Employee Testing Act and applicable state reporting requirements.

Employees who test positive for controlled substances or alcohol and employees who refuse to submit to a test or fail to comply with required testing protocol in order to obtain an accurate and/or timely specimen are in violation of this policy and are subject to disciplinary action up to and including termination of employment in accordance with District rules and District policies.

The District may refer any matter that may be a crime to the appropriate law enforcement agencies. Employees may be required to participate and complete counseling or rehabilitation programs if determined appropriate by the administration. A list of counseling, rehabilitation, and/or employee assistance programs available to employees can be located through the Assistant Superintendent of Operations.

Alcohol and drug screening records shall be maintained confidentially with an employee's medical records and released only in accordance with the law. Employees who make a written request for a copy of records of an employee's drug or alcohol use, including test results, may receive a copy.

The District is required to report certain convictions to the U.S. Department of Education or other required federal agency. Employees must notify the Superintendent of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after the conviction. The Superintendent is required to report any such conviction within ten (10) days after receiving notice from the employee or otherwise receiving notice of conviction, to any agency from which the District directly receives federal grant money. The District will take appropriate disciplinary action against employees with such convictions within 30 days.

If the District employs its own transportation service employees, the District will maintain records as required by law that relate to such drivers, and comply with all reporting requirements, including those set forth by the Missouri Department of Revenue, and to subsequent employers only as expressly requested in writing by the driver-employee.

Procedure for Drug and Alcohol Testing of Employees Other than Drivers:

1. If a supervisor has reasonable suspicion to believe that an employee is in violation of the District's drug-free workplace rules, the supervisor is required to reduce information and evidence of such violation to writing and immediately

report the incident to the Superintendent or designee. The supervisor should note all physical symptoms, witness to symptoms, and other evidence.

2. The Superintendent/designee will determine if testing is appropriate.
3. Testing will be administered as soon as reasonably possible based on the circumstances. If testing is delayed beyond a reasonable period of time, the Superintendent or designee shall document the reasons for delay.
4. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard. If such facility is not readily available or practical, the District may contact a law enforcement agency or personnel to conduct such testing.

Procedure for Drug and Alcohol Testing of Drivers: For the purposes of this procedure, the District's coordinator of drug and alcohol testing programs for drivers shall be the District Transportation Director.

The following terms are defined below for the procedure for testing of drivers:

Alcohol - Intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohols including methyl and isopropyl alcohol.

Driver - Any person who operates a commercial motor vehicle, including full-time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers; and independent, owner-operated contractors. Driver includes a person applying for a position that involves the driving of a commercial motor vehicle.

Drug - Marijuana metabolites, cocaine metabolites, amphetamines, opiate metabolites and phencyclidine (PCP).

Qualified Supervisor - An employee or driver supervisor who has completed at least 60 minutes of training on the symptoms of alcohol abuse and another 60 minutes of training on the symptoms of controlled substances use (120 minutes in total). The purpose of this training is to teach supervisors to identify circumstances and indicators that may create reasonable suspicion that a driver is using or under the influence of alcohol or drugs, supporting referral of an employee for testing.

Reasonable Suspicion - Specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of an employee.

Safety-Sensitive Function - A driver is considered to be performing a safety-sensitive function from the time a driver begins to work or is required to be ready for work until the time the driver is relieved from work and all responsibilities for performing work. Safety-sensitive functions include time spent waiting to be dispatched, inspecting, servicing, or conditioning a commercial motor vehicle, time spent at the driving

controls, any time spent in the commercial motor vehicle, time spent loading, unloading, or supervising loading or unloading of the vehicle, and time spent servicing or awaiting the service of a disabled commercial vehicle.

Substance Abuse Professional - A person who evaluates employees who have violated a Department of Transportation (DOT) drug and alcohol program regulation and makes recommendations concerning education, treatment, follow-up testing, and aftercare.

Testing - Testing will be conducted in accordance with federal law by facilities that meet applicable federal standards.

Pre-Employment Tests: Driver applicants are required to undergo pre-employment testing prior to performance of safety-sensitive functions and the District must receive a verified negative result. Prospective employees are required to submit to testing. Refusal to do so will disqualify an individual from employment. Current employees transferring from a non-safety-sensitive function into a safety-sensitive position are also required to undergo pre-employment testing.

Post-Accident Tests: All drivers will be trained on the requirement and procedures for post-accident testing. Drivers are required to comply with federal regulations and District procedures regarding testing.

- Post-accident tests will be administered as soon as practicable after any accident when there is:
 - A human fatality, regardless of whether a citation is issued to the driver;
 - Bodily injury resulting in medical treatment away from the scene of the accident when a citation is issued to the driver;
 - Disabling damage to a vehicle requiring a tow away when a citation is issued to the driver;
- The District may, in its discretion, require all drivers to submit to testing after any accident when the driver was performing a safety-sensitive function.
- Tests for drugs must be administered within 32 hours following the accident and tests for alcohol should be administered within two (2) hours and must be administered within eight (8) hours following the accident.
- Post-accident testing shall be conducted in accordance with federal law and regulations. Failures to comply with federal regulations relating to post-accident testing shall be documented by the District's coordinator and any required report shall be submitted to the DOT.
- Post-accident testing done by law enforcement officials shall meet post-accident testing requirements if the results are provided to the District.

Random Testing: The District will conduct random drug and alcohol testing of drivers. Random alcohol testing will be conducted just before, during, or just after an employee's performance of safety-sensitive duties. Random testing for drugs may occur without regard to proximity to the performance of safety-sensitive functions. Drivers will be selected by random process, and each driver will have an equal chance of being selected and tested for a given round of random testing. All random testing will be in accordance

with federal regulations. A failure to submit to a random test or any interference with a test by the employee will result in discipline up to and including termination.

Reasonable Suspicion Tests: The District will conduct reasonable suspicion drug and alcohol testing in accordance with federal regulations. Any qualified supervisor who has reasonable suspicion to believe that a driver has violated the alcohol or drug prohibitions of the District shall initiate the procedure for testing, beginning with documenting the basis for reasonable suspicion. Final documentation of the basis for reasonable suspicion shall be signed and filed with the appropriate District administrator by the qualified supervisor within 24 hours of the basis for reasonable suspicion or prior to the results of the test being released, whichever is earlier. Reasonable suspicion alcohol testing requires that observations are made just before, during or just after the period of the work day when the driver must comply with alcohol prohibitions. The qualified supervisor who makes a reasonable suspicion determination is prohibited from administering the test itself.

Return-to-Duty Tests: Any driver who is not terminated as a result of a positive test must receive an evaluation from a substance abuse professional at the employee's expense and successfully pass an alcohol or drug test before the driver will be permitted to perform safety-sensitive duties. The substance abuse evaluation must be conducted in accordance with federal law and by a properly credentialed substance abuse professional.

Follow-Up Tests: If a driver has violated the prohibited drug and alcohol rules, the driver shall be required to take a drug and/or alcohol test before returning to safety-sensitive functions for the District. The driver shall be subject to unannounced follow-up testing at least six (6) times in the first 12 months following the driver's return to active safety-sensitive service.

Within ten (10) days of the determination of a failed test by a driver, the District Transportation Director shall notify the director of the Missouri Department of Revenue of any driver who has failed to pass any drug or alcohol test administered pursuant to District procedures. All information required by the Missouri DOR shall be provided by the District in accordance with the law.

Employee-Student Relations E-185-E

All staff members of the District are expected to communicate with students in a professional manner and maintain appropriate boundaries and relationships with students. The standards set forth below apply to any interactions staff members may have with students of the District or students of other schools. These rules are not comprehensive, therefore any inappropriate interaction a staff member has with a child may result in disciplinary action against the staff member. Staff members are required to avoid interactions or situations which may lead to an appearance of impropriety or which could give rise to allegations of an inappropriate relationship.

Interactions and communications with students should be related to the educational relationship between a staff member and a student. It is common for employees to have contact with students in appropriate settings outside of the school environment and context through familial ties, community groups and activities, and commercial endeavors. Even in such settings, employees must comply with the rules provided herein and otherwise maintain appropriate boundaries and relationships.

1. Making sexual advances toward a student.
2. Touching students in a sexual manner.
3. 4. Communicating with students regarding the employee's own sex life or love life.
5. Engaging in or planning a romantic relationship with a student or former student of the District.

School employee should not use texting as a mode of communicating with students. Coaches/sponsors communicating with their teams should use a method of communication that allows for access to the communication by an administrator. The District may provide or prescribe certain methods of or platforms for communication for staff members to reach students and may restrict/prohibit other methods. Prior to using a particular method of electronic communication with a student or group of students, a staff member must seek authorization from his or her supervisor regarding the method/platform and the intended purpose. Once a method of

communication is approved, the staff member should only use electronic communication as often as required in order to achieve the approved purpose. Staff members may be required to include his or her supervisor on communications if directed to do so. Regardless of the mode, all communication must be for an educational reason. All electronic communication must occur between the hours of 6:00 a.m. and 10:00 p.m. Staff members who communicate with students via electronic methods either on District-owned or personally owned devices, may be required to provide copies of all communications with students immediately if so directed by a supervisor.

Any employee who is aware of a fellow employee's failure to maintain appropriate boundaries with a student is required to immediately report any such concern to the building principal or the Assistant Superintendent of Operations, and if applicable, comply with mandatory reporting requirements under the law. The District will provide annual training to staff members to ensure staff members are aware of these rules, signs of possible abuse, and reporting requirements under the law.

Personnel Records E-190-E

The District will maintain complete, accurate, and current personnel files for all employees of the District in accordance with the then-applicable Missouri Secretary of State's records retention schedule. The District will maintain records securely in accordance with any records-keeping recommendation practices made to the District by the District's auditors or the State Auditor.

The District will release, in accordance with the law, the names, positions, salaries, and lengths of service of employees. Employment contracts are not confidential personnel records and must be released in accordance with the law.

Schools receiving Title I funding are required to notify parents/guardians of each student attending any such school that they may request information regarding whether the:

- Student's teacher is certified to teach in the grade levels and subject areas in which the teacher provides instruction.
- Student's teacher is under emergency or other provisional certification status.
- Student is provided services by a paraprofessional, and if so, the qualifications of the paraprofessional.

Staff members are prohibited from using District resources, including letterhead and District email accounts, for providing personal references. Personal references may not give the appearance of the endorsement of the District. District employees, contractors, and agents are prohibited from providing personal references or otherwise providing assistance in obtaining a new job to any other school, any employee, contractor, or agent who has been accused of sexual misconduct regarding a minor or a student. The school nurse can assist with obtaining clarification of physician orders. Employees will be notified by the nurse, IEP case manager, and/or 504 case manager when a student has a health condition that warrants specific accommodations. Any accommodations provided via a health plan, IEP, or 504 Plan must be followed as written.

Students with Allergies S-145-E

The classroom is the most common area in which students experience an allergic reaction. Therefore, to protect the student, yourself, and others, employees should know which students have life-threatening conditions and their plans (IEP, 504 Plan, Emergency Action Plan (EAP), and Individual Health Plan (IHP)). Employees must

follow the plans, especially attending to accommodations. Employees must also attend all required trainings and individual meetings for a particular student. If necessary, request assistance from staff outside the classroom.

Employees should encourage non-allergen and non-food activities, reward, and treats. Employees should educate, with written permission from the family of a student with allergies, the class and families of restrictions and precautions. All substitute plans should include any pertinent student information and procedures for students with a plan.

Reporting and Investigating Child Abuse S-160-E

Definitions:

Child abuse - Any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control.

Child neglect – Failure by those responsible for the care, custody, and control of a child to provide the proper or necessary support, education, nutrition, or medical, surgical or other care necessary for a child's well-being.

Reasonable cause to suspect – Some reason to believe that a child may have been subjected to abuse or neglect; the employee does not need to have any sort of conclusive proof or validation.

Mandated Reporting: Missouri law classifies all staff as mandatory reporters of child abuse and neglect. School employees are required to report possible abuse or neglect regardless of whether the alleged perpetrator had “care, custody, or control” of the alleged victim. As mandated reporters, District staff are required to immediately report any child abuse or neglect they suspect or observe by calling the Abuse Hotline at 1-800392-3738. A mandated reporter may also make a report of suspected child abuse or neglect to any law enforcement agency or juvenile office. However, such report does not take the place of reporting to Children's Division (CD). When in doubt whether abuse or neglect may have occurred, err on the side of reporting.

The reporting requirements, as defined in law, are individual. Therefore, a teacher's or employee's supervisor should not make the hotline call to CD. The teacher or employee must make the call themselves. Teachers and other District employees should not be disciplined or discriminated against for reporting suspected abuse or neglect to the CD in good faith. If any school employee has reasonable cause to suspect that a student has been subjected to abuse or neglect, the employee should be provided immediate access

to a phone and be temporarily relieved of other work duties, as necessary, in order to make the report.

If a student reports alleged sexual misconduct on the part of a teacher or other District employee to a District employee, both the employee and the Superintendent must report the allegation to CD. CD is required to investigate the report. Investigate allegations against an employee of the District for the purpose of making employment decisions.

Making a Report: When a report to CD is made, the following information will be required: names and addresses of the child and his parents or other persons responsible for care; child's age, sex and race; nature and extent of the child's injuries, abuse, or neglect, including any evidence of previous injuries, abuse, or neglect to the child or siblings; name, age and address of the person responsible for the injuries, abuse, neglect, if known; family composition; source of the report; name, address, contact information, and occupation of the person making the report; actions taken by the person making the report; including any photographs taken and/or keeping the child; any other information that may be helpful. If CD declines to accept the report, log the name of the representative, the date, and the report made.

Student Records S-125-E

Student education records are official and confidential documents protected by the Family Rights and Privacy Act (FERPA). A student education record includes information such as date and place of birth, parent/guardian names and addresses, emergency contact information, enrollment and attendance records, academic records, special education records, discipline information, and health records.

A student record may also consist of notes or communication shared with one other individual that contains personally identifiable information regarding a student, including email, texts and other forms of information transmitted. Communication about a student must be consistently professional in all contexts.

Education records are requested and disclosed as required by law. Only District employees with a "need to know" have a right to certain types of a student's education records, which may not be the same information dependent upon one's role with the students. The District is required to document specific information associated with disclosing student records. When records are shared outside the District policy and procedures, it may create unmanaged risks for the District and the employee who shared information apart from approved procedures.

All records requests made to anyone in the District, unless it involves specific classroom assignments or activities, should be directed to and responded to by the building principals. Student records is addressed within District Policy S-125-P and in the Student/Parent Handbook.
